

District Advisory Committee (DAC)

The District Advisory Committee is a Board of Education advisory group, whose membership includes parents, students, community, and school staff. This year the DAC is continuing their focus on the importance of school climate and safety as it relates to increasing and supporting student performance and academic success. Part of the DAC's responsibility is to conduct conversations and target programming and initiatives regarding Positive Behavior Interventions and Support, 2012 MiPHY results as they relate to school safety and climate, and the District's mentoring program.

You may follow the progress of the DAC by going to www.unioncityschools.org click on the link labeled High School, and scroll down to the documents labeled DAC. Information regarding meeting dates, membership, and minutes from the meetings are posted there. If you have suggestions, questions or have interest in participating on this committee, please contact Christina Feneley, Director of Instruction, at 517.741.8561.
